

General Information

Location

The **Creta Convention Center** is located close to Heraklion, Crete, Greece

www.conference-greece.com

Distance from Heraklion Airport (HER): 23 km

Online Registration has now started!

Registration fee

650 Euros

Registration fee includes accommodation, meals, lectures, and transportation between Heraklion airport and the Spring School venue (will be arranged); it does not include flight tickets.

Organisation

Stavros V. Konstantinides
Center for Thrombosis and Hemostasis (CTH)
University Medical Center, Mainz, DE

Menno V. Huisman
Department of Thrombosis and Hemostasis,
Leiden University Medical Center, Leiden, NL

Contact CTH (coordination office)

Center for Thrombosis and Hemostasis (CTH)
University Medical Center Mainz
Langenbeckstrasse 1
55131 Mainz, DE

LEIDEN UNIVERSITY MEDICAL CENTER

4th International Spring School on Pulmonary Circulation and Right Ventricular Function

**The Science and Practice
of Venous Thromboembolism**

7-12 May 2019

Heraklion, Crete, Greece

www.eurospringschool.eu

Welcome

Dear Colleagues,

It is our great pleasure to invite you to the Fourth International Spring School on THE SCIENCE AND PRACTICE OF VENOUS THROMBOEMBOLISM. The biannual VTE School is organised by the Center for Thrombosis and Hemostasis (CTH) at the University Medical Center Mainz, Germany, in collaboration with the Leiden University Medical Center (LUMC), The Netherlands, and it is endorsed by international and European scientific societies.

Venous thromboembolism (VTE) is the third most frequent acute cardiovascular disease, but also a field in which translational and clinical research has recently revolutionized clinical practice and improved patient outcomes. Based on the support and the feedback that we received from you in our past Spring Schools, we are taking every care to ensure that the programme of the Fourth Spring School 2019 will include the most relevant and contemporary scientific topics related to thrombosis and VTE, while promoting active interactions and scientific networking.

The programme will feature:

- State of the Art clinical seminars
- Moderated poster presentations
- Young Investigator Awards
- Meet the Experts lunch sessions
- Breakout workshops in the afternoon sessions
- Keynote lectures in the evening sessions
- Numerous further networking opportunities.

The purpose of the International VTE Spring School is to provide interested early career scientists and physicians across a broad spectrum of medical disciplines with a comprehensive overview of what is, at present, the state of the art in the rapidly evolving science and practice of VTE and its chronic sequelae. The participants will have the opportunity to benefit from the interactive seminars and workshops to be moderated by some of the world's most renowned experts and leaders in the field. Last but not least, the Spring School will offer a unique opportunity for discussing future areas of research and collaboration projects.

We very much hope that you will join us for this exciting educational event in May 2019!

With very best regards

Stavros V. Konstantinides, MD

Menno Huisman, MD

Faculty

Stefano Barco (DE), Cecilia Becattini (IT), Benjamin Brenner (IL), Héctor Bueno (ES), Jelena Čelutkienė (LT), George Chalikias (GR), Sven Danckwardt (DE), Jana Grünwald (DE), Menno Huisman (NL), Marc Humbert (FR), David Jiménez (ES), Frederikus Klok (NL), Stavros Konstantinides (DE), Matija Kozak (SI), Irene Lang (AT), Mareike Lankeit (DE), Eckhard Mayer (DE), Lilian Meijboom (NL), Nicolas Meneveau (FR), Guy Meyer (FR), Fionnuala Ní Ainle (IE), Marina Panova-Noeva (DE), Paolo Prandoni (IT), Jürgen Prochaska (DE), Piotr Pruszczyk (PL), Marc Righini (CH), Olivier Sanchez (FR), Sebastian Schellong (DE), Karen Schreiber (DK), Branislav Stefanovic (RS), Adam Torbicki (PL), Alice Trincherio (DE), Cécile Tromeur (FR), Eric Vicaut (FR)

CME Accreditation by EBAC

The Fourth International Spring School on THE SCIENCE AND PRACTICE OF VENOUS THROMBOEMBOLISM will be accredited by the European Board for Accreditation in Cardiology (EBAC)

The scientific programme of the VTE spring school is endorsed by the following societies:

Scientific Topics

- The Pathophysiology of VTE
- Links Between Arterial and Venous Thrombosis
- VTE and Cancer
- Progress in VTE Diagnosis - Between the Past and the Next European Guidelines
- Imaging of the Right Ventricle and Pulmonary Circulation
- Imaging of the Pulmonary Vasculature
- Novel and Emerging Biomarkers
- Risk-Adjusted Anticoagulation and Interventions
- Treatment of Acute and Chronic Right Heart Failure
- Role of the Laboratory in Modern Anticoagulation Management
- Atypical Sites of Thrombosis
- VTE in Pregnancy
- Fragile Patients, Bleeding Emergencies
- Optimizing Follow-Up Programmes After PE
- Workup of Patients With Persisting Dyspnoea After PE
- Advances in CTEPH Treatment
- Designing and Interpreting Clinical Trials
- Early Career Support and Networking Opportunities
- Abstract Presentations, Workshops, Discussion of Challenging Clinical Cases
- Hands-On Tutorials
- Young Investigator Awards
