

4th International Spring School The Science and Practice of Venous Thromboembolism

7-12 May 2019

www.eurospringschool.eu

Creta Convention Center, Heraklion, Crete, Greece

The purpose of the Fourth International VTE Spring School is to provide early career scientists and physicians across a broad spectrum of medical disciplines with a comprehensive overview of what is, at present, the state of the art in the rapidly evolving science and practice of acute venous thromboembolism and its chronic sequelae.

The programme features:

- State of the Art clinical seminars
- Moderated poster presentations with Young Investigator Awards
- Meet the Experts lunch sessions
- Breakout workshops (parallel interactive practical sessions, from which the participants will be able to choose among a total of 12 offered workshops) in the afternoon sessions
- Keynote lectures
- Numerous further networking opportunities
